Business Planning and Support

Mission

To provide superior and rapid support to the Department of Public Works and Environmental Services' (DPWES) five core business areas of stormwater, wastewater, solid waste, land development and capital facilities, so that they may realize their full potential in their service to the community.

Focus

Business Planning and Support (BPS) consists of the DPWES Director's Office personnel who provide senior level management support for the County's DPWES organization. The DPWES Director oversees daily operations; provides direction to the DPWES five core business areas; and works collaboratively with stakeholders, both internal and external to the County, as well as the department's business areas to ensure that the actions of the department are aligned with County and department policies and meet the needs of County residents.

The DPWES Director also is responsible for overseeing the implementation of the department's Strategic Plan, which aligns the department with its Guiding Principles (its mission, vision, leadership philosophy and operational values) and the County's Vision Elements. The Strategic Plan integrates the department's five core business areas into one cohesive organization that is committed to working collaboratively with all of its stakeholders, is highly focused on public and customer service, enables all employees to exercise their leadership skills and is constantly renewing itself.

THINKING STRATEGICALLY

Strategic issues for the department include:

- Enhancing the department's role in establishing and implementing the County's environmental agenda;
- Enhancing relationships and communications with internal and external customers and stakeholders;
- Developing workforce planning strategies to enable the department to meet future program and service needs; and
- Providing senior level management support to the entire DPWES organization.
